PSA Centrii App Home Security, **Connected**

Stay connected to your home, even when you're away. The PSA Centrii App lets you check in on your security system, receive instant alerts, and watch live footage from anywhere. You'll have peace of mind knowing your home is protected.

Live Playback

View your connected device's live feedback on your smart device, from anywhere you have an internet connection.

Active Notifications

When activity is picked up, be first to know with notifications directly to your smart device.

2-way Communication

Speak directly through your devices through the app, allowing you to communicate with unexpected visitors in real time. (Applicable devices only).

Home Automation Scheduling

Schedule lighting, alerts and automate processes through the smart controls within the app.

Smart Home Compatible

Compatible with Google home and Alexa Smart home devices.

Cloud Recording

Backup recordings onto a subscription-based cloud system for further security. *Applicable devices only

No Monthly Fees

Security shouldn't come with extra costs. Receive full access: free, always.
