

# Cable Tracers, Wi-Fi Detector & Cable Checker

## Cable Tracer Tone Generator

- Simple and easy to use device for tracking cables
- Inject a tone into a cable and follow with the tone probe
- Insulated probe tip
- Volume control to suit your work environment

T180

## Tone Probe Cable Tracer

- The 256712F probe is a high quality unit, with a special filter circuit to reduce interference from the background and even body static
- Special inductive plastic tip, which prevents accidental shorts
- Traces and identifies wires or cable in a bundle or group without damaging cable insulation
- Adjustable volume level for various work environments
- Both an amplifier and LED for loud or dark work environments
- Will work with any tone generator in the market
- This unit can also be used with CABAC 256553, 256653T and 256003 Tone Injecting LAN Testers to trace cables and jacks

## Digital Wireless Hot-Spotter

The digital hot spotter searches for IEEE 802.11b/g networks and provides information to the user about detected wireless networks. This small device eliminates the need to boot-up a laptop to determine if a wireless network is available.

The Digital Hot-Spotter is a hand held device with a LCD display, that provides essential network information, including network name, encryption status and more.

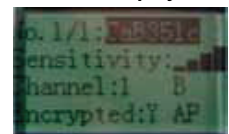

- Shows signal availability 802.11b and 802.11g
- Signal strength
- Detects encryption (WEP and WPA)
- Provides channel information (1 to 13)
- Provides specific information about each network when there are multiple networks
- Range 60m

## PC Cable Tester

This device will test most PC cables available on the market today.

The LED display clearly determines wiring status, by providing point to point outline of the actual wiring configuration. The test modes include:

- USB cables
  - 1393 cables (FireWire)
  - SATA cables
  - TX - DB25M/F, DB9M/F, HD15/M, DB15/M, RJ45/F
  - RX - Centronics 36/F, DB25M/F, DB9M/F, HD15/F, DB15/F, RJ45/F
- Tester can quickly diagnose the existence of open wires, shorted wires, crossed wires, mis-wiring and continuity.
