

# Wall Mounted External Grille

TRADE RANGE

## Slimfit External Grille

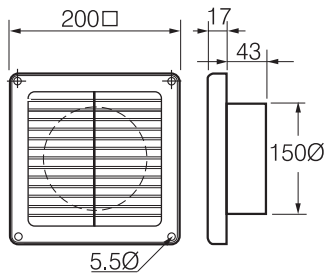

The Slimfit Grille and Spacer Plate have been specifically designed to fit directly onto the spigot of an EDM-300C fan. This allows it to be installed into narrow panel wall applications from 45 to 130mm thick such as mining accommodation huts, portable homes and site offices.

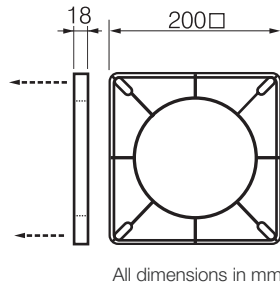

### Dimensions

**Slimfit Louvre Grille**  
(Model No: DPL150)

**Spacer Plate**  
(Model No: DPS150)

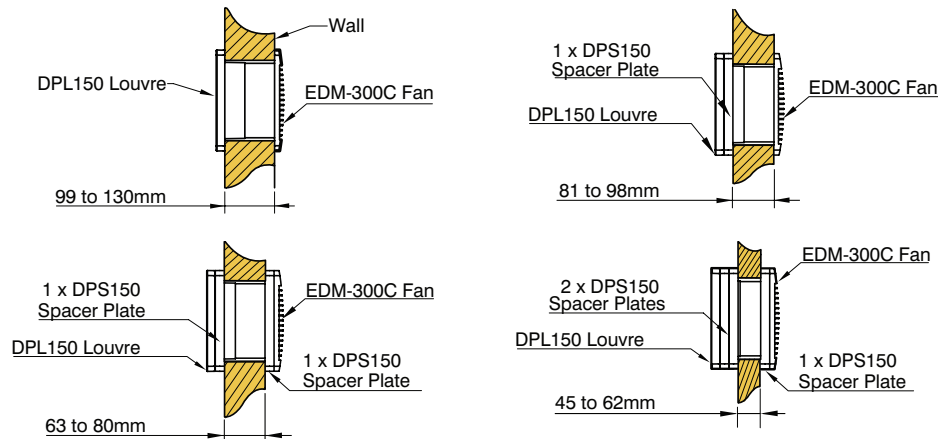

### Features

- Spacer Plate can be mounted on exterior or interior wall
- Made from UV-stabilised ABS Plastic
- Comes with flywire mesh sheet to eliminate entry of insects
- Can also be used in thicker walls or ducted applications using wall tube or flex duct
- Available with 150mm spigot only

**i** Designed to fit directly onto the EDM-300C wall mounted fan for narrow panel wall applications.
