

Quartz Air Conditioner, 6kW

With a premium, sleek design, this smart air conditioner delivers effective heating and cooling with anti-viral, anti-bacterial UV Protect.

FEATURES & BENEFITS

UV Protect Sterilisation

UV Protect helps to deliver clean air to your room using Health mode, with built-in LED UV lights that kill airborne Staphylococcus aureus bacteria and the H3N2 virus at more than 91% effectiveness under specific test conditions.*

Self-cleaning technology

Your Quartz air conditioner will continue working efficiently to produce clean air, with a Self-clean function that flushes away dirt from the evaporator and reduces the growth of mould and bacteria. This process also cleans the outdoor unit, helping to clear salt and debris that can lead to corrosion.

Smart control

Use the SmartHQ™ app to turn on your air conditioner from anywhere to ensure the perfect temperature when you get home, or use your Wi-Fi enabled Quartz with Google Home or Amazon Alexa voice control.

Coanda Plus airflow

Engineered to send airflow further, an aerodynamic louvre design helps to circulate air evenly throughout your room for total comfort.

Easy installation and maintenance

Designed to help your installer get the job done fast, Quartz air conditioners come with simple positioning specifications. The control board and motor are also easily accessible for maintenance.

Sleep mode

Sleep mode supports your ideal sleeping environment, raising, lowering or maintaining the temperature throughout the night for maximum comfort.

Turbo mode

With the Turbo function, the motor and fan work at a higher frequency so you can enjoy a cool or warm room within a much shorter time.
