MMSSLB

Our range of standard test tags provides the most innovative tagging solutions to the electrical industry. The combination of matching durability and quality is a result of implementing thorough manufacturing standards to benefit our customers.

- Professional print solutions for high legibility and smear resistance
- UV, Humidity, Temperature and abrasion resistant
- Manufactured to withstand the toughest conditions
- Range of colour finishes to support your requirements

STANDARD TAG COLOURS (others also)

Tags supplied in packs of 100

## Customised Heavy Duty Test Tags

MM&S is known for supporting our valued customers with a range of customised test tags. This range of heavy duty tags can be customised to suit your specific requirements through our simple co-ordination process.

We incorporate full colour logos and additional text such as licence numbers and test due dates can be pre-printed to save you time and money. Our range of tags incorporate a standard base colour that corresponds to a specific testing period eg: Blue is the 'June to August' testing period (Outside of NSW).

# Flag Style Heavy Duty Test Tags

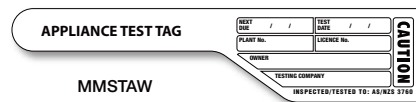

Our range of flag style test tags are easy to secure to the cable with a unique fastening clip that doesn't compromise the integrity of the tag. They can easily be removed. A robust tag that is non-adhesive, but easy to install.

- Efficiencies in application time based on our unique 'clamping clip'
- Customised brand labelling capability with unique company identification
- UV, Humidity, Temperature and abrasion resistant
- Professional print solutions for high legibility and smear resistance
- Range of colour finishes to support your requirements

**Tags supplied in packs of 100**

# Log Book & Accessories

Our range of test tags would not be complete without a high quality range of log books and accessories.

Our testing log books feature:

- Quick find index
- Extensive list of 100 items per book
- Durable plastic cover for tough environments

The range of marking pens offer:

- Extra fine tip permanent marking to avoid smearing
- Speciality formulated ink for industrial, laboratory and commercial use
- Resistant to bleeding when exposed to extreme heat / processing chemicals or UV

## Warning Sign For Recess Lights

Since 2013 it is now mandatory for all installations to include a safety sign fitted in the roof space. The regulations further outline the installations of a warning sign adjacent to the access panels is necessary in compliance with AS1319 and under certain guidelines including minimum letter height of 10mm.

MM&S have designed a special warning sign encompassing the highest quality yellow polypropylene durable material to withstand tearing, moisture, temperature rise and insects. In keeping with the regulations, the sign must be viewable within the roof space and within two metres from each access panel.

**Supplied as:**

Pack of 1 MMS-RWS/1

Packs of 10 MMS-RWS/10

Packs of 5 MMS-RWS/5

Packs of 50 MMS-RWS/50

## Warning & Speciality Tags

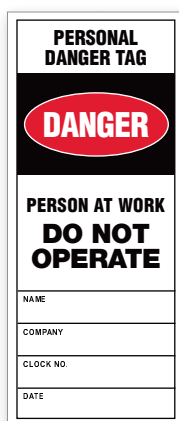

MMS-FOM

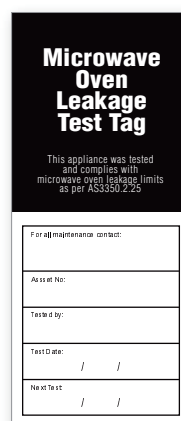

MMS-INTRO

MMS-MEC

MMS-DANGER

MMS-MICRO

MMS-FAST

MMS-FAILED

These Special Purpose tags are specifically suited to the appropriate operational circumstance of the equipment they are being used with.

The tags are 46x110mm.  
**Supplied in packs of 100**

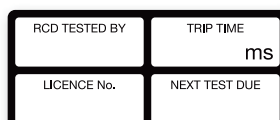

## Wrap Around & RCD Test Tags

The RCD test tags are supplied as a roll with each individual sticker ready to be peeled off and adhered to the appliance. The Wrap around barcodes are supplied on a roll also, with the advantage of being able to adhere them around a cable. Calibration stickers are also available.

Wrap Around Barcode **Roll of up to 1000**  
MMS-WABCODE

Mini RCD **Pack of 100**  
MMS-RCDTT

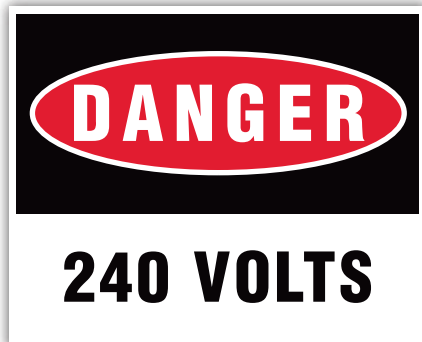

The text boxes on these tags can also be edited to an extent, but the look and colour will always be as seen here.

# Lockout Heavy Duty Tags

We carry a wide range of 100% Promeg Poly Propylene lock out tags.

Features include: Semi Rigid 0.6mm Promeg with 10mm brass eyelets for greater strength and increased durability. Tags can be attached with a lock out device or nylon tie supplied with each tag.

Promeg has no Plasticizers, no leachable components, no lead, and no heavy metals. All the componets in Promeg conform to AS2070 Plastic Parts, suitable for food contact. They come in a five pack which includes five tags, cable ties and a Sharpie Marker. Special orders for bulk requirements can be arranged.
