

Conduit Corrugated 25mm HD Grey Solar 50m PVC

Item Code: 3016440

Part Number: AMPCCH2550SOLAR

Specially designed for solar installations, Trademate solar corrugated conduit is made in Australia with extreme UV stabilisation for Australian conditions. "Solar carry" is heavy duty and highly resistant to impact, weather, and chemical corrosion. Ideal cost-effective solution for protection of electrical cables in static PV solar systems. Suitable for residential or commercial solar PV (photovoltaic) installations.

General

Unit of Measure	Roll
Material	U-PVC self-extinguishing
Colour	Grey

Dimensions

Length	50 m
Nominal Diameter	25 mm
Internal Diameter	18.3 mm

Operating Specifications

Flame Propagation	Non-flame propagating
UV Radiation Resistance	Extreme
IP Rating	IP66

Min Operating Temp	-5 °C
Max Operating Temp	60 °C
Compressive Strength	Minimum 1250Nt/5cm
Resistance to Impact	Minimum 6 Joule

Compliance

Compliance	RoHS
Certification	B.E.P
Standard	AS/NZS 2053.5-2001
