

Quick Overview

Copper Top Battery 1.5V AA Cell Size

Features

Features & Benefits

- Delivers up to ten times the ampere-hour capacity compared to zinc carbon batteries at high & continuous drain conditions
- Superior low temperature performance to other conventional zinc carbon batteries
- Excellent resistance to corrosion
- Reliable performance

Designed to meet all major quality, safety & environmental standards:

- Safety: IEC 60086-5
- ANSI C 18.1M, Part-2
- EU Battery Directive
- Quality: ISO 14001 & 9001

Details

Part No.	DURPC1500
Brand	PROCELL
Pack Quantity	144
Unit Of Measure	Each
Carton Quantity	144
Compendium Page #	297
